

Editorial

WE ARE pleased to announce this year's winners of the IEEE TRANSACTIONS ON VERY LARGE SCALE INTEGRATED (VLSI) SYSTEMS (TVLSI) Circuits and Systems (CAS) Society Best Reviewer and Associate Editor Awards. We had a number of qualified candidates for each award, but after a thorough evaluation process including input from the Associate Editors and Selection Committee, these five individuals stood out among all the candidates:

Best Associate Editor Award

Prof. Yuh-Shyan Hwang, National Taipei University of Technology
Dr. Tanay Karnik, Intel Corporation

Best Reviewer Award

Dr. Hussein Ali, SLAC National Accelerator Laboratory and Stanford
Prof. Chin-Fong Chiu, A-Neuron Electronic Corp
Prof. Shimeng Yu, Arizona State University

**Names are listed in no particular order*

Congratulations to all of our winners on these well-earned awards! Each winner has exhibited the qualities we look for to ensure the highest standards.

As a top journal in the field, we strive to provide quality reviews in a timely fashion. Our goal is to provide each manuscript with at least three substantive reviews within a two-month time period. Once again, we were able to meet this goal even as our yearly submissions continue to grow. While some reviews take longer than we would like, we will continue to place strong emphasis on the quality of the reviews.

This strong effort could not have been achieved without the support of all of our authors, reviewers, and Associate Editors. Your hard work and dedication has helped make TVLSI a premier journal in the expanding field. This high-quality level

of work along with the support of CAS Society has allowed us to start publishing manuscripts in a timely manner and introduce special sections. Thank you for your support!

In order to be eligible for these distinguished prizes, you must be a member of CAS Society. Please visit the CAS Society website at <http://iee-cas.org/>. We also encourage you to update your profile in ScholarOne (<https://mc.manuscriptcentral.com/tvlsi-ieee>) to ensure your eligibility. Make sure to checkoff the CAS Society membership, update the affiliation, and provide your IEEE member number. If you have multiple accounts, make sure to e-mail the Journal Administrator (tvlsiadm@duke.edu) to update the system. This not only ensures your eligibility, but also helps us create a more efficient review process. Reviewer scores from multiple accounts will not be added together.

Once again, congratulations to all of our winners on these well-deserved awards.

Warm Regards,

KRISHNENDU CHAKRABARTY, *Editor-in-Chief*
